IT202-008-S2024 - [IT202] JS and CSS Challenge

## Submissions:

Submission Selection

1 Submission [active] 2/13/2024 12:01:40 AM

## Instructions

^ COLLAPSE ^

- Reminder: Make sure you start in dev and it's up to date
  - 1 `git checkout dev`
  - 2 `git pull origin dev`
  - 3 `git checkout -b M3-Challenge-HW`
- 1 Create a copy of the template given here: <https://gist.github.com/MattToegel/77e4b66e3c73c074ea215562ebce717c>
- 2 Implement the changes defined in the body of the code
  - 1 Hint: You may want to use your browser's developer tools to see the script that's pulled in, this may help with a few challenges
- 3 Do not edit anything where the comments tell you not to edit, you will lose points for not following directions
- 4 Make changes where the comments tell you (via TODO's or just above the lines that tell you not to edit below)
  - 1 Hint: Just change things in the designated `<style>` and `<script>` tags
  - 2 Important: The function that drives one of the challenges is `updateCurrentPage(str)` which takes 1 parameter, a string of the word to display as the current page. This function is not included in the code of the page, along with a few other things, are linked via an external js file. Make sure you do not delete this line.
- 5 Create a branch called M3-Challenge-HW if you haven't yet
- 6 Add this template to that branch (`git add/git commit`)
- 7 Make a pull request for this branch once you push it
- 8 You may manually deploy the HW branch to dev to get the evidence for the below prompts
- 9 Once done, generate the output/submission file
- 10 Add, commit, and push the submission file
- 11 Close the pull request by merging it to dev (double-check all looks good on dev)
- 12 Manually create a new pull request from dev to prod (i.e., base: prod <- compare: dev)
- 13 Complete the merge to deploy to production
- 14 Upload the same submission file to Canvas
- 15 Checkout dev and pull latest changes to prepare for future work

Branch name: M3-Challenge-HW

## Screenshots (4 pts.)

#### Explanations (4 pts.)

^ COLLAPSE ^

EXPAND

##### Task #1 - Points: 1

Text: Briefly explain how you made the navigation horizontal

EXPAND

##### Task #2 - Points: 1

Text: Briefly explain how you remove the navigation list item markers

EXPAND

##### Task #3 - Points: 1

Text: Briefly explain how you gave the navigation a background

EXPAND

##### Task #4 - Points: 1

Text: Briefly explain how you made the links (or their surrounding area) change color on mouseover/hover

EXPAND

##### Task #5 - Points: 1

Text: Briefly explain how you changed the challenge list bullet points to checkmarks (✓)

EXPAND

##### Task #6 - Points: 1

Text: Briefly explain how you made the first character of the h1 tags and anchor tags uppercase

EXPAND

##### Task #7 - Points: 1

Text: Briefly explain/describe your custom styling of your choice

EXPAND

##### Task #8 - Points: 1

Text: Briefly explain how the styling for the challenge list doesn't impact the navigation list

EXPAND

#### Task #9 - Points: 1

Text: Briefly explain how you updated the content of the h1 tag with the link text

COLLAPSE

#### Task #10 - Points: 1

Text: Briefly explain how you updated the content of the title tag with the link text

COLLAPSE

Misc (2 pts.)

COLLAPSE

#### Task #1 - Points: 1

Text: Comment briefly talking about what you learned and/or any difficulties you encountered and how you resolved them (or attempted to)

**Details:**  
At least a few sentences

Response:

I really didn't have much difficulty for the majority of the assignment until it came to the javascript portion where it really became a challenge. It took me quite some time to really understand how to implement the functions to update the <title> and <h1> tags as this is the first time i've ever worked with JS and HTML together.

COLLAPSE

#### Task #2 - Points: 1

Text: Add a link to your pull request (hw branch to dev only)

URL #1

Missing URL

COLLAPSE

#### Task #3 - Points: 1

Text: Add a link to your production file

URL #1

Missing URL

COLLAPSE

#### Task #4 - Points: 1

Text: Waka Time (or related) Screenshot

## Checklist

\*The checkboxes are for your own tracking

#	Points	Details
<input type="checkbox"/> #1	1	Screenshot clearly shows what files/project were being worked on (the duration of time doesn't correlated with the grade for this item)
